Re: PhD Thesis Corrections: Mr Gilbert Eaton (s2795921)

We write to confirm that Mr Gilbert Eaton has completed all necessary corrections to the thesis as per the instructions of the Chairperson of Examiners and examiners' reports. Most of the examiners' statements have been accepted and addressed, with a small number not modified with appropriate rebuttal to the comments provided. A response to the examiners explaining the actions taken to address each comment has been provided by the candidate.

As principal supervisors, we have reviewed all changes and responses and it is our opinion that the thesis in its amended form satisfies all requirements of the Chairperson of Examiners and suitably addresses the examiners' comments.

Yours sincerely,

Dr Andrew Busch
